

Chiayi Branch Work Record on May 15th, 2020.

Ying-Jin Chen, Deputy Director of the Executive Department of the Ministry of Justice, visited Chiayi Branch on May 15, 2020 at 11:20 a.m.

During the period of epidemic prevention, Deputy Director Chen reminded the current focus of the agency's work is as below.

1. Continue to pay attention to the implementation of epidemic prevention measures for all personnel of the agency. Do not be loose due to the "zero diagnosis" of the epidemic situation in these days and never allow any breach of epidemic prevention. In addition, Deputy Director Chen stated that since the government started the epidemic prevention, the various executive branches had actively implemented the "home quarantine" and "home isolation" penalty cases and achieved very good results, and received the affirmation of the Dean of the Executive and the consensus of the public opinion. Any requests of fines resulted from the violations of "home quarantine" and "home isolation" should continue to be enforced immediately and strictly, demonstrating that the administrative enforcement agency is an important part of the national epidemic prevention teams.
2. Enforcement colleagues should hold the principle of proportionality when handling the cases. The enforcement procedures should strictly abide by the law and the enforcement colleagues should be careful on their attitudes. For those obligors who are economically disadvantaged, we should take the initiative to care for them and provide them referral to social welfare authorities and private social welfare organizations to implement the spirit of "justice and care". All participants were benefited a lot, and had a deeper understanding of the implementation of justice and caring. The guiding tour ended successfully.
